

Event 17

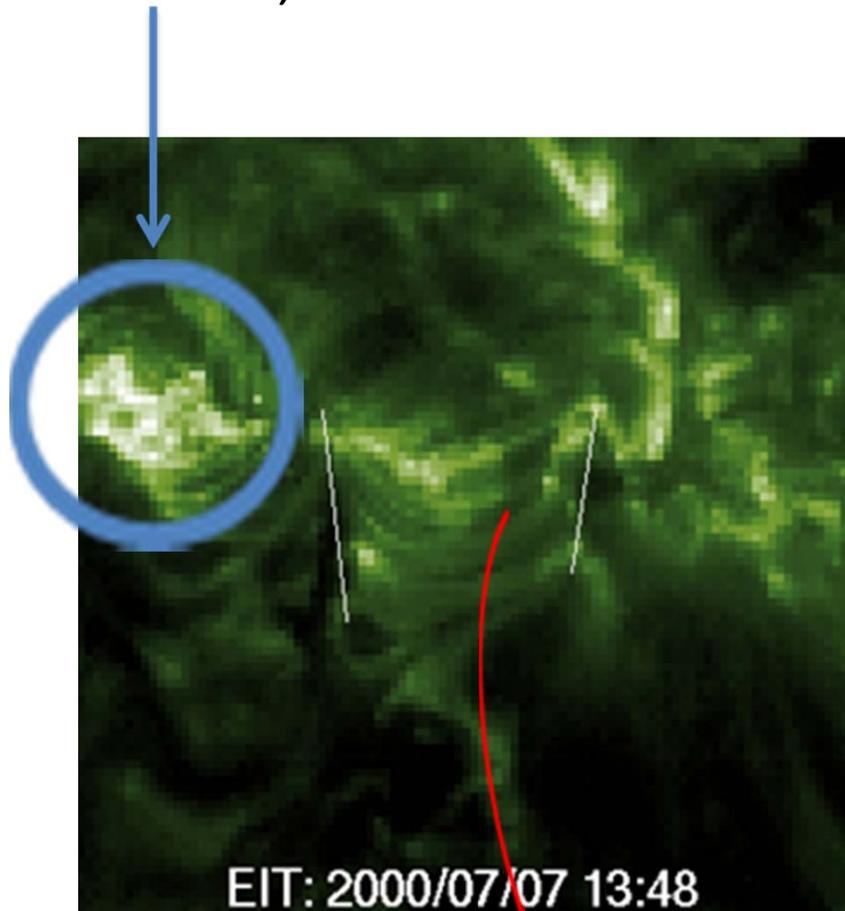

Results: Exceptional 1 (2000/7/7)

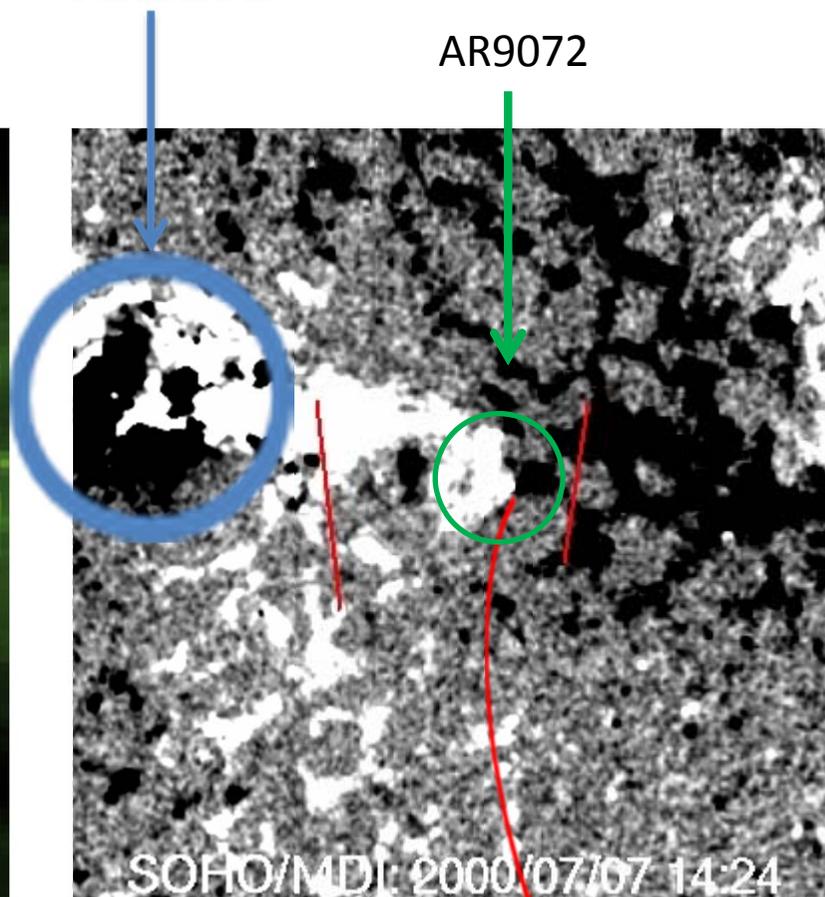

This filament disappeared ~3 hours before the CME appearance time.

Event 17

AR9070, C5.6 Flare

AR9070

- The EUV arcade was formed above the northern part of the filament (~AR9072)
- The C5.6 flare at AR9070 was not related to the filament eruption and the CME.
- The source location needs to be changed from N17E10 (AR9070) to N04E00(filament centroid).
